

Project Initialization and Planning Phase

Date	12 July 2026
Team ID	XXXXXX XXXXXX
Project Name	Smart Lender – Loan Eligibility Prediction System
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Applicant seeking a loan	Secure a loan for property	Married with no co-applicant income	Self-employed with a good credit history	Optimistic about loan approval

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An individual applying for a personal or home loan	Check whether I am eligible for a loan before applying.	I don't know if my application will be approved, and the process is time-consuming	Banks use multiple financial factors, making eligibility difficult to estimate manually.	Uncertain, anxious, and worried about loan rejection and wasted time.
