Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to know if I'm eligible before applying. • The loan process should be quick and transparent • I don't want my application to be rejected	THINKS • Will the bank approve my loan? • Do I meet all the eligibility criteria? • Can I improve my chances of approval??
PERSONA NAME <i>(Role / User Type)</i>	
DOES • Enters personal and financial details. • Compares loan options online.. • Uses the Smart Lender web application.	FEELS • Uncertain about loan approval.. • Worried about rejection and delays. • Confident about making better farming decisions.
